Alfonso González – Full Stack Web Developer

Tarariras, Colonia, Uruguay | alfonso.gonzalezwebdev@gmail.com | +598 99 567 652
GitHub | LinkedIn | Portfolio

Professional Profile

Full Stack Developer with intensive training and hands-on experience in both personal projects and freelance work. Strong command of modern technologies such as React, Next.js, Tailwind, Node.js, Express, and PostgreSQL, with deployments on platforms like Vercel, Render, and Supabase. I have developed multiple self-taught projects applying best practices in UI/UX design, business logic, and code structure. I stand out for my adaptability, commitment, and constant motivation to improve. I'm looking to join a development team where I can continue growing and bring real value. English level: C1

Technologies

Languages: JavaScript, TypeScript, PHP
Frontend: React, Next.js, Tailwind CSS, Bootstrap
Backend: Node.js, Express
Databases: PostgreSQL, MySQL
Tools: Git, GitHub

Highlighted Projects

Developer – ClickNest (Academic Experience): E-commerce platform featuring user registration, login/logout, shopping cart, and order management.

Animations – Planner.uy Website: Partial development and animation of images and text.

Business Incubator. Project in the development stage, aimed at supporting local SMEs, participating in economic development initiatives linked to the Colonia Departmental Government *(without institutional commitment).*

SOLES Project. Development-stage initiative focused on community well-being.
Currently in the analysis phase and in preliminary discussions with departmental authorities.
(Confidential details.)
